Our core mission is to be your advocate and provide you with proven consulting methods that until now were cost-prohibitive.

We understand the needs of healthcare practices and the challenges you encounter adopting a new digital medical office.

impleMED will work directly with you to ensure your practice successfully launches its newly acquired EMR. Our goal is for you to seamlessly migrate from paper to digital and to immediately realize the benefits of your new system. We complete this effort using our proven three-tiered approach:

Select - Implement - Deploy

Our Process:

Select

Practice Evaluation

- Onsite workflow analysis
- Employee interviews

EMR Vendor Review

- RFP submission
- EMR demonstrations
- Same specialty practice visits

EMR Vendor Select

- Proprietary executive analysis
- ROI study
- Vendor contract negotiations

Implement

Manage Vendor Timelines

- Software installation
- EMR training
- EMR beta testing

Data Implementation

- Billing system conversion
- Systems interfacing
- Document scanning

3rd Party Coordination

- Computer networking
- Offsite back-up
- Website design / patient portal

Deploy

6 month ROI Analysis

Virtual Document Processing
